Questions at the end

Recording will be sent
CASH & VOUCHER ASSISTANCE AND GENDER-BASED VIOLENCE COMpendium

Training modules: why, what and experience from pilot
SPEAKERS

Tenzin Manell is Senior Technical Advisor for Cash and Livelihoods at the Women’s Refugee Commission and co-chairs the Global Protection Cluster’s Task Team on Cash for Protection. She has 11 years experience in humanitarian and development contexts with experience in Latin America, Africa, Asia and the Middle East.

Holly Welcome Radice is the Cash and Markets Technical Advisor at CARE and co-leads the Gender & Cash Sub-workstream of the Grand Bargain. Holly has over 20 years experience in humanitarian and development contexts with experience Latin America, Africa and the Middle East.
Overview of webinar

• What is the Compendium, why do we need it, who is it for and how will it help you in your work?

• Training modules now available

• Observations on pilot training & adaptations made

• Questions
What is the Compendium?

Cash & Voucher Assistance and Gender-Based Violence Compendium: Practical Guidance for Humanitarian Practitioners

A Companion Guide to the IASC GBV Guidelines | May 2019
What is the Compendium?

Pillar 1: GBV risk mitigation

Pillar 2: Using CVA for GBV prevention & response to GBV
Why do we need the Compendium & training?

- GBV
- CVA

- Evidence
- Reticence

- Evidence
- Reticence

Capacity
Scale-up
Funding
Field-based humanitarian practitioners across all areas or sectors of humanitarian response who use cash or vouchers in their programmes

GBV specialists who are considering using CVA in their programming

Members of the humanitarian country team

Humanitarian coordinators and donors who advise and monitor teams and partners on GBV mainstreaming/integration
The compendium is a companion guide
What will practitioners accomplish by using the Compendium?

- Differentiate between
  - GBV risk mitigation in CVA
  - Potential ways in which CVA can contribute to GBV prevention and response

- Identify practical actions that CVA and/or sector specialists and other humanitarian actors can take to identify and mitigate the risks of GBV in CVA

- Identify practical actions that GBV specialists can take to incorporate GBV-protective CVA in their GBV programming
REDUCING GBV RISKS IN CVA: MODALITY DECISION TREE AND GBV RISK ANALYSIS TOOL FOR CVA

With communities, identify GBV risks that could arise or be exacerbated as a result of the proposed CVA and identify who is at risk in this context. Assign context-specific weights/importance to GBV risks.

**YES**

- Consider adjusting aspects of the CVA such as the modality, delivery mechanism, targeting method and conditions (if any). Explore individual, community-based and humanitarian agency actions that could mitigate the identified GBV risks.

**NO**

- Explore the individual, community and humanitarian agency actions and other aspects of programme design that could mitigate the identified GBV risks.

Are any of these GBV risks specific to the proposed type of CVA?

**YES**

- Weigh the risks against the likely effectiveness of mitigation measures and the potential benefits of CVA, discuss with the community (individuals and groups), and decide whether and how to implement CVA.

**NO**

- If no feasible mitigation measures exist, consider in-kind assistance or no material assistance (continue other services and protection work without CVA).
### Reducing GBV Risks in CVA: Modality Decision Tree and GBV Risk Analysis Tool for CVA

MODULES OVERVIEW
OVERVIEW

- Overall facilitator's guidance gives overview of the materials and hyperlinks to other key resources
- Separate handouts of tools and glossary
- Module-specific facilitator's guide and Powerpoint presentation
- Activities
MODULES

• Introduction
• Situation Analysis
• Design
• Implementation
• Monitoring
• Action Plan

HCT, Cluster Coordinator, Donors

Learning objectives:

• Use the key GBV and CVA terms and concepts

• Discuss the importance of GBV risk mitigation across the different steps of the project cycle

• Identify the specific importance of GBV risks mitigation when CVA is used to deliver on sectoral and multi-sectoral responses

• Time requirement: 3 hours
Humanitarian practitioners

Learning objectives:

• Use the key GBV and CVA terms and concepts

• Differentiate between i) GBV risk mitigation in CVA, and ii) potential ways in which CVA can contribute to GBV prevention and response

• Identify existing support for the identification and mitigation of GBV risks (tools and technical support provided by GBV specialists)

• Implement practical actions to identify and mitigate the risks of GBV in CVA

• Time requirement: 8 hours
GBV Specialists

Learning objectives:

• Use the key GBV and CVA terms and concepts

• Consider the use of CVA in your GBV programming

• Advise technical specialists using CVA to deliver on sectoral and multi-sectoral responses about appropriate GBV risk mitigation

• **Time requirement:** 8 hours
PILOT TRAINING
Pilot training overview

- 3 trainings in Nairobi
- 39 participants (69% female, 31% male)
- 28 agencies + independent consultants
- Contexts represented: Ethiopia, Somalia, Kenya, Uganda, Afghanistan, Egypt, Syria, Iraq, ECSA and global
Trainee make up

Trainee Affiliation

- INGO: 66%
- LNGO: 5%
- UN: 9%
- Donor: 5%
- Other: 15%

Trainee background

- Generalist: 32%
- GBV: 34%
- Sector: 34%
Observations and lessons learned from training

• Very high demand around the world

• Well received & high levels of satisfaction

• HCT/Coordinator/SMT module extended in length and content

• Materials adapted to provide 5 learning pathways

• Option to complement training with ½ day workshop with GBV and sector/CVA specialists
Next steps

- Translation in French, Spanish, Arabic
- Post online: Kaya Connect, GBV AoR
- Plan training roll-out
  - Collaboratively seek funding
  - Develop complementary materials – ToT/online module
  - Engage communities of practice
    - Regional approach
    - National cash working group/protection cluster/GBV working group
Questions to participants

• What guidance can you share for training roll-out for widest reach/support localization?

• What has been your experience so far utilizing the compendium - opportunities, benefits, challenges?

• What can we do to get uptake in your region/response/country/agency?
THANK YOU!

Questions are welcome
